

WORLD OF RADIO #1207, produced November 12, 2003 by Glenn Hauser

- *WOR heard in New York, Sun at 0843 on Europirate Ozone Radio International, 6200+
- *We're on four US SW stations, WBCQ, WINB, WWCN and WRMI
- *But we and everyone else have lost Radio for Peace International; University cut off power as we recorded last week, November 5, so 7445 is off the air. RFPI is taking legal action for compensation, while equipment is being moved out to a new transmitter site in the mountains, donated by a supporter. Already has office in downtown San Jose. May be able to resume internet streaming shortly, but several months before SW could be back. James Latham & Co. are not going to let this setback put an end to RFPI; best wishes to them
- *XERMX again heard on proper frequencies, 9705 and 11770 [but blobmitter is also back, varying around 10450]
- *Digital tests on Mexican AM and FM; IBOC on XEN 690, 100 kW from Mexico City, producing loud noise on 680 and 700 in north Texas
- *R. Rebelde, Cuba, has two services; the FM side relayed on SW 6120, Musica Viva 96.7, Frecuencia Super Stereo, while AM service is on 5025

- *Voice of Democratic Eritrea, 1700-1800 UT Mon & Thu on 9820 ex-15670; on Sat still on 5925 to Eu, time not given
- *Radio Ethiopia heard better in Spain than Germany, English at 1600-1700 on 9559.6 variable (recording at 1630, songs and news)
- *R. Ethiopia closed Arabic at 1500, drifting upward 0.7 kHz per 10 minutes, such as 9561.2
- *Ethiopia also on 9705, but Niger is there too, La Voix du Sahel heard around 1400 in New York
- *V. of the Saharan Arab Democratic Republic, Polisario clandestine from Algeria to Western Sahara, heard on 7460 by several in North and South America, Arabic to Spanish at 2300; starts at 1700 on 7460 and 1550; Moroccan jamming worse on MW from 1840. Much stronger and more professional than before, thanks to Algeria?

- *Contrary to last week's report, Arutz 7 ship still at anchor off Tel Aviv
- *Turkey and Vietnam were using 7100 on border of ham band, but both have moved. Turkey agreed to leave Nov 10 for 9840, but that clashes with R. Liberty, VOA, then CRI during most of 1800-2255
